Leave Management New Release FAQs

Who will be required to download Microsoft Silverlight 4.0?

Users will only be required to download Microsoft Silverlight 4.0 if they need to create, view or edit flow charts.

Is there a limit with regards to the flow chart positions?

Yes, there is a limit of 200 positions in the flow chart.

Can a position in the middle of the flow chart be deleted?

Yes, however the 'child' positions need to be moved before deleting the middle position and then the 'child' positions can be moved back again.

Can different approvers be set up to approve different leave types?

No. Approvers are placed within the flow chart to receive the online leave application form regardless of the leave type.

Can the Leave Roster be printed?

Yes. However, if there are many employees on the leave roster, the names are truncated.

You can request a Leave Approve & Balance Report for your Payroll Consultant (Managed Service) or support@epayroll.com.au (ePayroll clients)

What is the expected time of delivery of Phase II?

This is yet to be decided, however, we will keep clients up-to-date with these changes.

Can an Employer Holiday have a variable date? E.g. Employees are given a day off for their birthday.

No. The Employer Holiday is for date-specific holidays such as a Picnic Day.

Leave types such as Birthday Leave are best set up as a paycode and assigned to the applicable employees. The leave paycode will become available for the employee to select from the drop down box at the time of applying for the leave online.

Can hours be rostered for Part Time Employees? For example, working 6 hrs on Monday and 4 hours on Tuesday only?

In regards to Part Time employees and their hours of work, unfortunately at this stage hours cannot be assign to the timesheet policy. For example, you are (currently) not able to assign 6 working hours on Monday and 4 working hours on Tuesday.
